Red Hat Academy

(Bridging the Gap between Education and Industry)

Red Hat® Academy is an academic training program designed to help institutions differentiate themselves by providing an enterprise-ready Linux and open source curriculum. This comes in the form of hands-on instruction, online curriculum, labs, performance-based testing, and instructor support. Students will develop the in-demand skills employer need and receive discounted certification exams.

Why Red Hat?

TRAINED, TESTED, AND TRUSTED

We know that finding IT professionals who know your technologies and have the right skills can be challenging. The Red Hat Academy curriculum is best-in-class training that offers a diverse curriculum for system administrators and developers.

ABOUT RED HAT at SVIT

SVIT has partnered with Red Hat Academy to prepare our students for stronger careers and support future open source contributors. Red Hat Enterprise Linux is the largest Linux Network Operating System in the worldwide, comprising 80% of the Linux market share.

Red Hat's RHCSA (Red Hat Certified System Administrator) & RHCE (Red Hat Certified Engineer) is the hottest vendor information technology certificate in Linux market today. Currently Red Hat Academy curriculum & exam offers both RHCSA and RHCE in **Computer Engineering Department at SVIT campus**. This will allow students to test at a greatly reduced cost and not have to travel to an examination site.
