

## Sardar Vallabhbhai Patel Institute of Technology, Vasad

### Appeal to the Parents

Dear Parents,

We hope to find you and your family safe and in good spirits. Since the first phase of lockdown we have been conducting evaluation, counselling, submission, mock practice tests and academic (teaching and doubt solving sessions) activities, on line, for our students so that we do not lose on academic, and exam fronts and complete the syllabus.

The schedule for on line teaching for second semester students has been informed to them. We hope that you are also aware about the activities that are going on.

Our teachers have been working from home, conducting online classes using different platforms and Microsoft Teams for the past two weeks. Using these platforms, we may conduct submission also. The schedule for the submission will be informed to the students in advance. Please stay tuned with your ward.

It is expected from the students to follow certain disciplines for the online classes. We request you to help your ward to understand and follow certain basic discipline. Please co-operate with us during this critical time and feel free to get in touch with your valuable suggestions.

Dr. S. D. Toliwal

Principal
