Subject: Industrial Visit Report

Respected Sir,

We, undersigned, were instructed to attend the “Industrial Visit” on 28th February, 2018 at BISAG, Gandhinagar along with the 3rd Year VI semester students of Information Technology Department in which 106 students accompanied with us for the Industrial visit.

We reached BISAG, Gandhinagar as per the scheduled time around 10:15 AM for the visit. The visit timing was 10:30 A.M to 12:00 . Here we met Kamlesh sir who helped us to arrange the visit to BISAG. Mr. Kamlesh gave the presentation on the working of BISAG in different areas. They even showed the Charts & Models of ahmedabad city whose pictures were taken from one of our Indian Satellite. Then the students were taken to the lab from where the broadcasting of various BISAG channels has been done. And then we left BISAG exactly at around 12:00 PM. We are thankful to Mr. Saurabh Bhabhor for his kind support in BISAG, Gandhinagar during the Industrial Visit. Then we took a halt at Infocity, Gandhinagar for lunch for around 1hour 15 minutes.

The students enjoyed the industrial visit to BISAG. They learned how actually the satellites in space work and revolve around the earth. Moreover, they also learned how the satellites help in giving the weather information through Geographical Information System.

Thanking You.

Yours Truly & Faithfully,

Mr. V.K.Barot
Asst. Prof., IT

Ms. M. H. Mehta
